# The Story Behind the Bubbles

## *Tutto è iniziato con l'amore*

The Romano family has been in the wine and spirits business for nearly 100 years. And, as with all great stories, the story of Bariano starts with a love story...

Buddy and Florence Romano raised 7 children while building the 2nd generation of a Chicago-based distribution company. Their lives were hectic but when they did take a moment, it was with a glass of Prosecco.

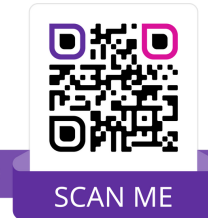

Today, *Bariano* honors that spirit of family, relaxation and love of life with its fresh, elegant and light taste. The name Bariano is a nod to the fourth generation – combining Tricia Romano Barry’s last names. Tricia designed the label and worked alongside the di Gasparetto family as they created just the right taste and fragrance for this new Prosecco from the Glera grapes in northern Italy.

Together they launched Bariano – which is perfect for celebrating love – both old and new.
